To the Commissioner for Consumer Affairs Consumer and Business Services, Attorney-General's Department

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* section 6(2) of Schedule 3 of the *Second-hand Vehicle Dealers Act 1995*, I have audited the financial report of the Second-hand Vehicles Compensation Fund for the financial year ended 30 June 2018.

Opinion

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Second-hand Vehicles Compensation Fund as at 30 June 2018, its financial performance and its cash flows for the year then ended in accordance with the Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2018
- a Statement of Financial Position as at 30 June 2018
- a Statement of Changes in Equity for the year ended 30 June 2018
- a Statement of Cash Flows for the year ended 30 June 2018
- notes, comprising significant accounting policies and other explanatory information
- a Certificate from the Commissioner for Consumer Affairs, the Executive Director, Finance, People and Performance and the Acting Manager, Corporate Services.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Second-hand Vehicles Compensation Fund. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 Code of Ethics for Professional Accountants have been met.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Commissioner for Consumer Affairs for the financial report

The Commissioner for Consumer Affairs is responsible for the preparation of the financial report that gives a true and fair view in accordance with the Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the financial report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Commissioner for Consumer Affairs
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the Commissioner for Consumer Affairs about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

The Second Hand Vehicles Compensation Fund (the Fund) is regulated by the *Second-hand Vehicle Dealers Act 1995* (the Act) and is administered by the Commissioner for Consumer Affairs. The financial statements are required by Schedule 3 of the Act and include income, expenses, assets and liabilities which the Commissioner administers on behalf of the SA Government.

1.2 Statement of compliance

These financial statements have been prepared in compliance with section 23 of the *Public Finance and Audit Act 1987*.

The financial statements are General Purpose Financial Statements which have been prepared in accordance with applicable Australian Accounting Standards Reduced Disclosure Requirements and Treasurer's Instructions and Accounting Policy Statements promulgated under the provisions of the *Public Finance and Audit Act 1987* (PFAA).

The Fund has applied Australian Accounting Standards that are applicable to not-for-profit entities, as the Fund is a not-for-profit entity. Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective, have not been adopted by the Department for the period ending 30 June 2018.

1.3 Basis of preparation

The preparation of the financial statements requires:

- the use of certain accounting estimates and requires management to exercise its judgment in the process of applying the Fund's accounting policies. The areas involving a higher degree of judgment or where assumptions and estimates are significant to the financial statements are outlined in the applicable notes
- accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported
- compliance with accounting policy statements issued pursuant to section 41 of the *Public Finance and Audit Act 1987*.

The Fund's Statement of Comprehensive Income, Statement of Financial Position and Statement of Changes in Equity have been prepared on an accrual basis and are in accordance with the historical cost convention, except for certain assets that were valued in accordance with the applicable valuation policy.

The Statement of Cash Flows has been prepared on a cash basis.

The financial statements have been prepared based on a twelve month operating cycle and presented in Australian currency.

All amounts in the financial statements and accompanying notes have been rounded to the nearest thousand dollars (\$'000).

Assets and liabilities are characterised as either current or non-current in nature. Assets and liabilities that are sold, consumed or realised as part of the normal operating cycle even when they are not expected to be realised within twelve months after the reporting date have been classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

The accounting policies set out in the notes have been applied in preparing the financial statements for the year ended 30 June 2018 and the comparative information presented.

1 Basis of financial statements (continued)

1.4 Comparative information

The presentation and classification of items in the financial statements are consistent with prior periods except where specific accounting standards and/or accounting policy statements have required a change.

Where presentation or classification of items in the financial statements has been amended, comparative amounts have been adjusted to conform to changes in presentation or classification in these financial statements unless impracticable.

The restated comparative amounts do not replace the original financial statements for the preceding period.

2 Objectives of the Second Hand Vehicles Compensation Fund

The Fund is regulated by the Act. The Fund is kept and administered by the Commissioner for Consumer Affairs. It exists to provide compensation for persons who have a valid unsatisfied claim against a second hand motor vehicle dealer in relation to the purchase, sale or consignment of a second hand vehicle. The claim is heard by the Magistrates Court and an order for compensation will only be made if there is no reasonable prospect of recovering the amount of the claim other than from the Fund.

The Fund's main source of income is contributions received from second hand vehicle dealers in accordance with Schedule 3 of the Act. The Fund also receives income derived from the investment of Fund assets.

Investments are made by way of notional unit holdings in a selection of common funds managed by the Public Trustee.

The proportion of unit holdings is dependent upon the investment strategy adopted.

As at 30 June 2018 the Fund held investments in common funds in the following proportions:

Cash	34.83%
Balanced Investments Strategy	33.52%
Capital Stable Investments Strategy	29.09%

Investments are measured at fair value in accordance with unit prices at balance date as advised by the Public Trustee.

Investments are classified as either current or non-current. The current investments are the Cash Investments Strategy and the non-current investments are the Balanced Investments Strategy and Capital Stable Investments Strategy.

Due to the classification of investments as available for sale, revaluation increments or decrements are recognised in the investments market value reserve.

The fair value of assets traded in active markets are based on quoted market prices for identical assets at balance date.

During the year the Fund invested \$1.2 million with Public Trustee (2017: \$nil) due to a review conducted in 2016 by an investment consultant. The review recommended a change in investment strategy requiring the transfer of surplus cash held with the Treasurer to Public Trustee investments.

14 Financial risk management/ financial instruments

Financial risk management

Risk management is managed by the Fund's corporate services section and fund risk management policies are in accordance with the *Risk Management Policy Statement* issued by the Premier and Treasurer and the principles established in the *Australian Standard Risk Management Principles and Guidelines*.

All cash balances and cash common funds held with the Public Trustee are available at call. Investments held with the Public Trustee are classified as 'available for sale' financial assets. Net gains or losses resulting from movements in the fair value of investments are recognised directly in equity. Accordingly there is no impact on the net result.

Investments represent funds held by the Public Trustee. The Public Trustee has invested in collective investment vehicles for the purpose of gaining exposure to Australian and international equities. The managers of such vehicles have invested in a variety of financial instruments which expose the Fund to investment risks, including market, credit, interest and currency risk. At reporting date funds totalling \$5.275 million were invested with the Public Trustee. Pooled investment funds are not rated for credit risk. The Public Trustee considers the credit risk of individual fund managers prior to investing funds and reviews these assessments quarterly.

Other than pooled investments, the Fund has no significant concentration of credit risk.

The Fund is exposed to price risk. Price risk represents the risk that the fair value of investments held with the Public Trustee will fluctuate due to changes in the market price for the underlying asset.

Cash is also subject to interest rate risk.

There have been no changes in risk exposure since the last reporting period.
